PROFESSIONAL SUMMARY

Frontend Developer (React.js) with 2 years of experience building production-ready dashboards and responsive web apps. Experienced in API integration, performance optimization, and translating Figma designs into scalable UI. Currently working remotely with a UK-based team.

PROFESSIONAL EXPERIENCE

Logistifie | Frontend Developer (Full-time, Remote)

📅 Jan 2024 – Present   📍 London, UK
🔗 https://logistifie.com/

- Converted Figma designs into SEO-friendly, responsive websites, ensuring cross-browser/device compatibility.
- Reduced unnecessary re-renders using React hooks & memoization, improving page load time by ~15%
- Built reusable UI components used across 5+ pages
- Implemented backend functionality (file uploads, email contact forms, Google reCAPTCHA) using PHP/MySQL.
- Collaborated with designers and backend developers for smooth API integration and uniform UI/UX delivery.

Mosher Core Limited | Frontend Developer (Part-time)

📅 Jul 2024 – Jan 2025
🔗 www.melolem.com

- Built and maintained complex, responsive dashboards in a Laravel-based app.
- Integrated frontend elements with APIs & backend logic in coordination with backend developers.
- Improved cross-browser support and mobile responsiveness for dynamic business applications.

Rean WaterTech Pvt. Ltd. | Software Developer Intern

📅 Apr 2023 – Jul 2023

- Developed responsive React.js components and multi-page navigation using React Router.
- Applied state management & props drilling to enable efficient data flow between components.
- Participated in client/stakeholder meetings, aligning technical features with project goals.

EDUCATION

Burdwan Raj College (University of Burdwan)

📅 Bachelor's Degree | 2019 – 2022

CORE COMPETENCIES

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3
- **Styling:** CSS3, Tailwind CSS, Bootstrap, Responsive Design
- **React Skills:** Component-based architecture, Hooks, State & Props, React Router
- **API Integration:** REST APIs, JSON, Fetch/Axios
- **Tools:** Git, GitHub, VS Code
- **UI/UX:** Cross-browser compatibility, Performance Optimization
- **Basics:** SEO fundamentals, Accessibility awareness

PROJECTS

https://sujoygitt.github.io/portfolio/

Task Management Dashboard (Active Development)

- React + Tailwind based task management dashboard with modular components, clean dashboard UI patterns, and API-ready architecture. Optimized component reusability and minimized unnecessary re-renders using React hooks and memoization.

React E-Commerce UI

- Scalable e-commerce frontend with reusable components, product listing, and responsive layout. Designed with API integration in mind.

Jira Board Clone

- Jira-inspired task board UI with column-based layout, focus on clean UX and component reusability, Drag and drop , CRUD operation handle by localstorage.

Advanced Weather App

- Real-time weather application using public APIs with location search and modern dark/light UI.

YouTube Clone (API-Driven)

- Integrated YouTube Data API for video search and listing with responsive UI and optimized performance.
